Acknowledgements

Lisa Gear (Supporting Parents Healthy Children Coordinator – Able Southern Family Support) would like to acknowledge the support of my team members at Able, especially Rachel Harbrow – Business & Finance Administrator, and Karen Goffe – General Manager, for their time and expertise in putting this together.

I would like to make a special acknowledgement to Christine Zander-Campbell (Manawatu, Chair, Supporting Parents Healthy Children`s Project Group and Manager Supporting Families in Mental Illness) for sharing her great work. Also Bronwyn Dunnachie (Senior Advisor, Werry Workforce), for her great resources, help and support of SPHC.

Parents and families/whanau want the best for their children. The guidelines in this resource folder will help mental health and addiction services and families/whanau alike, to work in a family focused way, towards the development of clear supports for people in their role as parents/caregivers.
